Variadic Generics
Micro Survey results

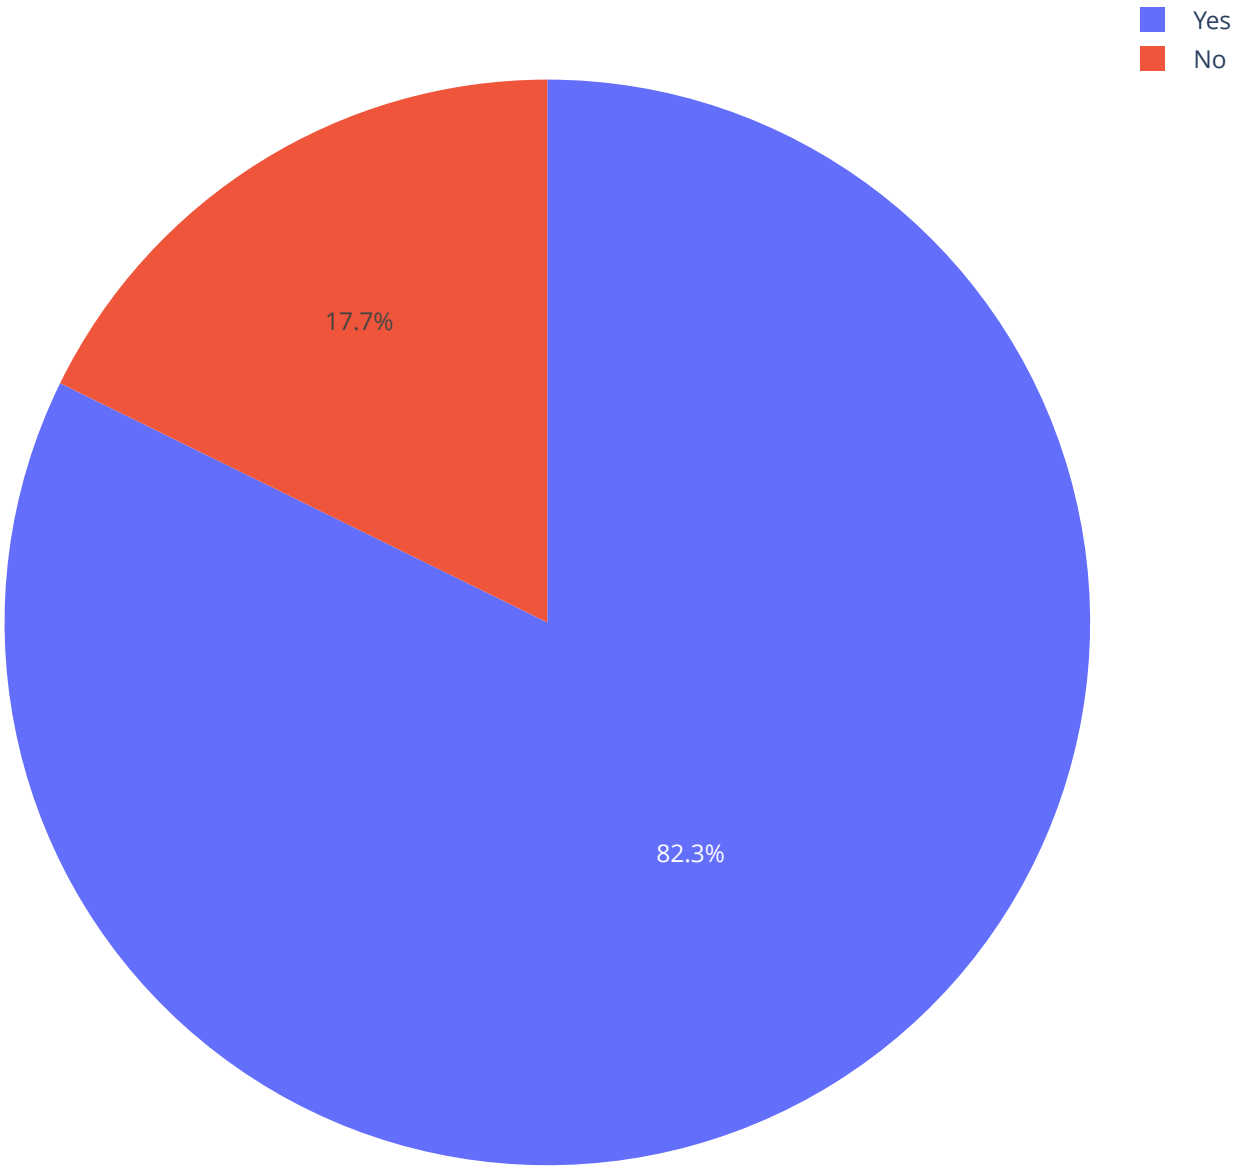

How long have you been using Rust?

(total responses = 3309, single answer)

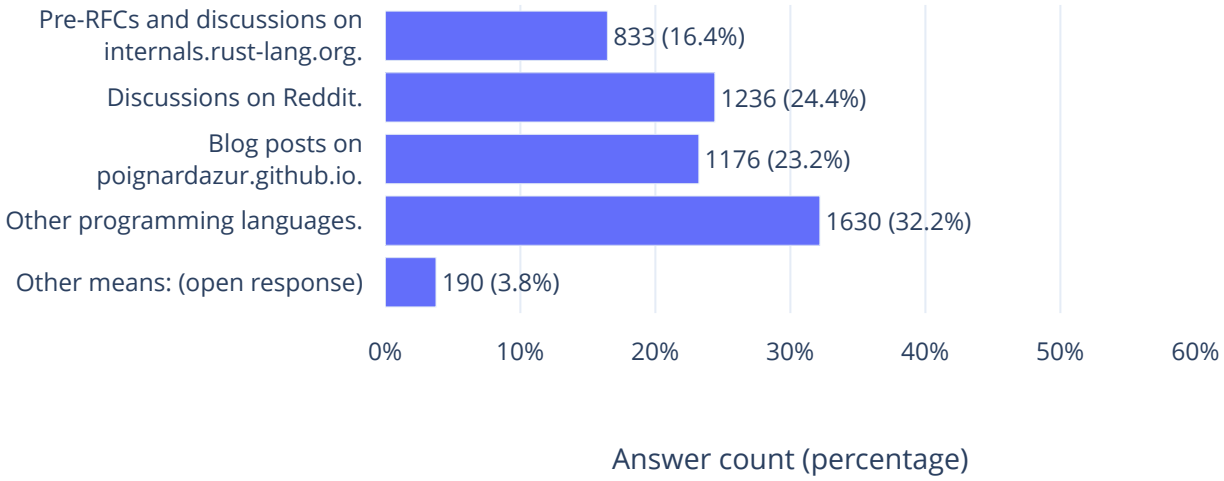

Have you heard about variadic generics before?

(total responses = 3304)

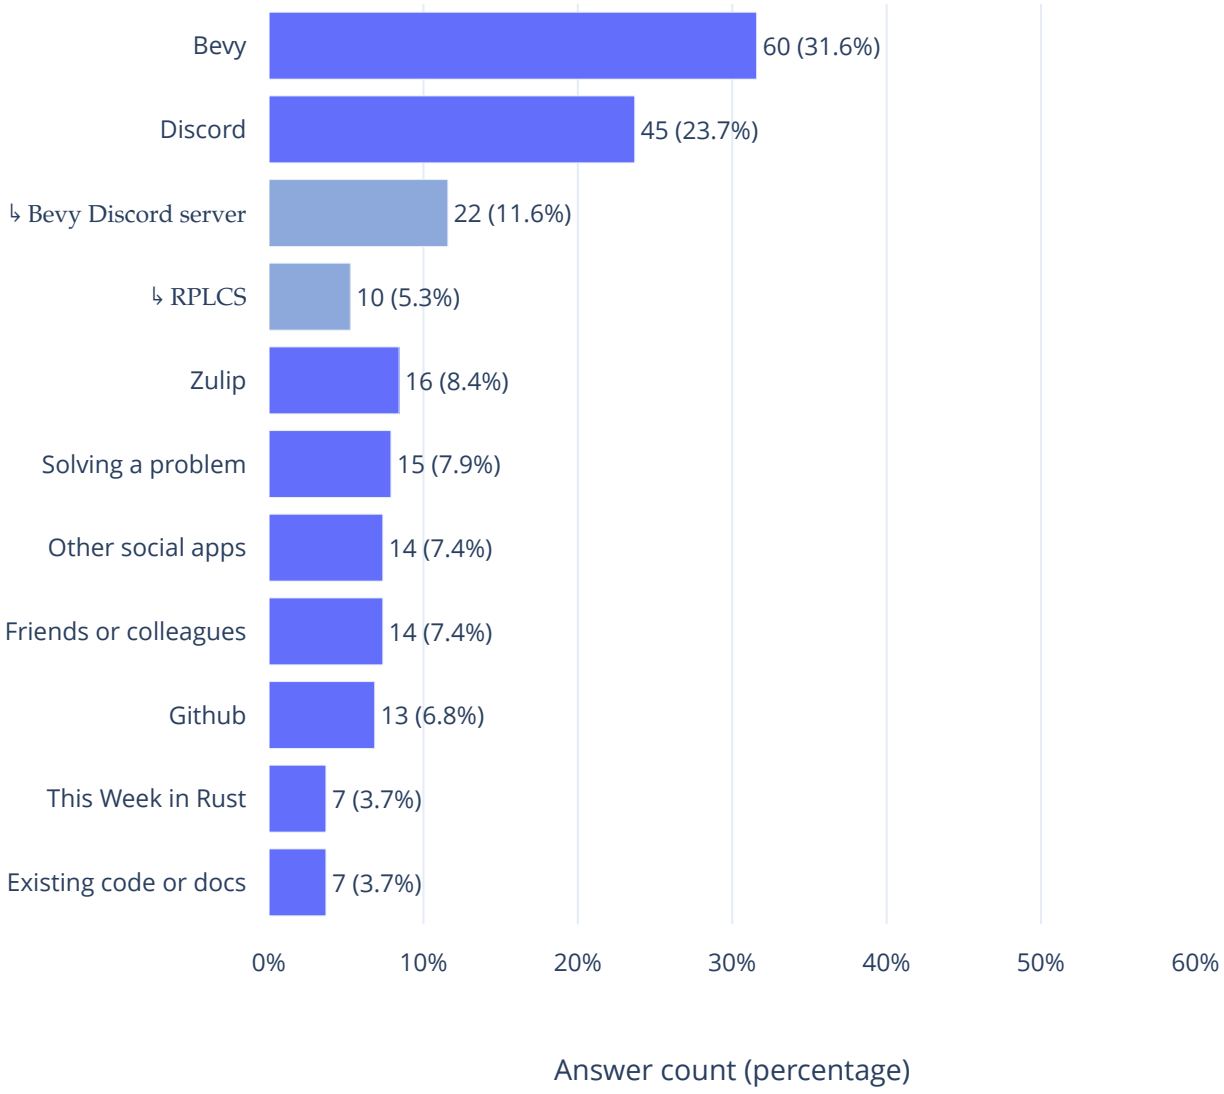

Where have you heard about variadic generics?

(total responses = 5065, single answer)

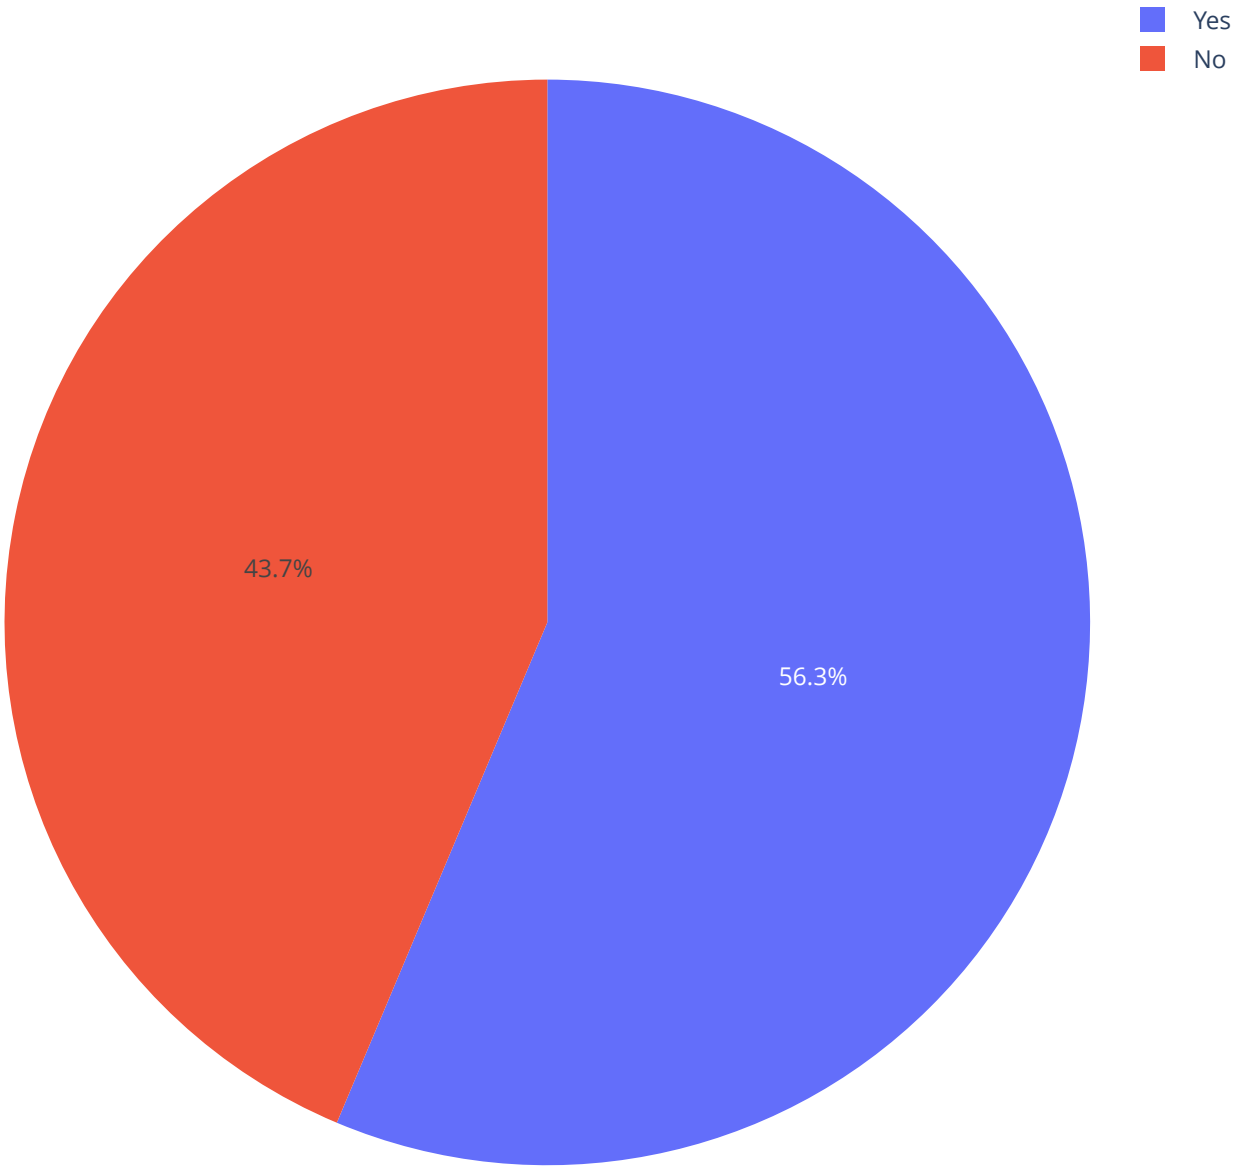

Where have you heard about variadic generics? (Open answers)

(total responses = 190, multiple answers)

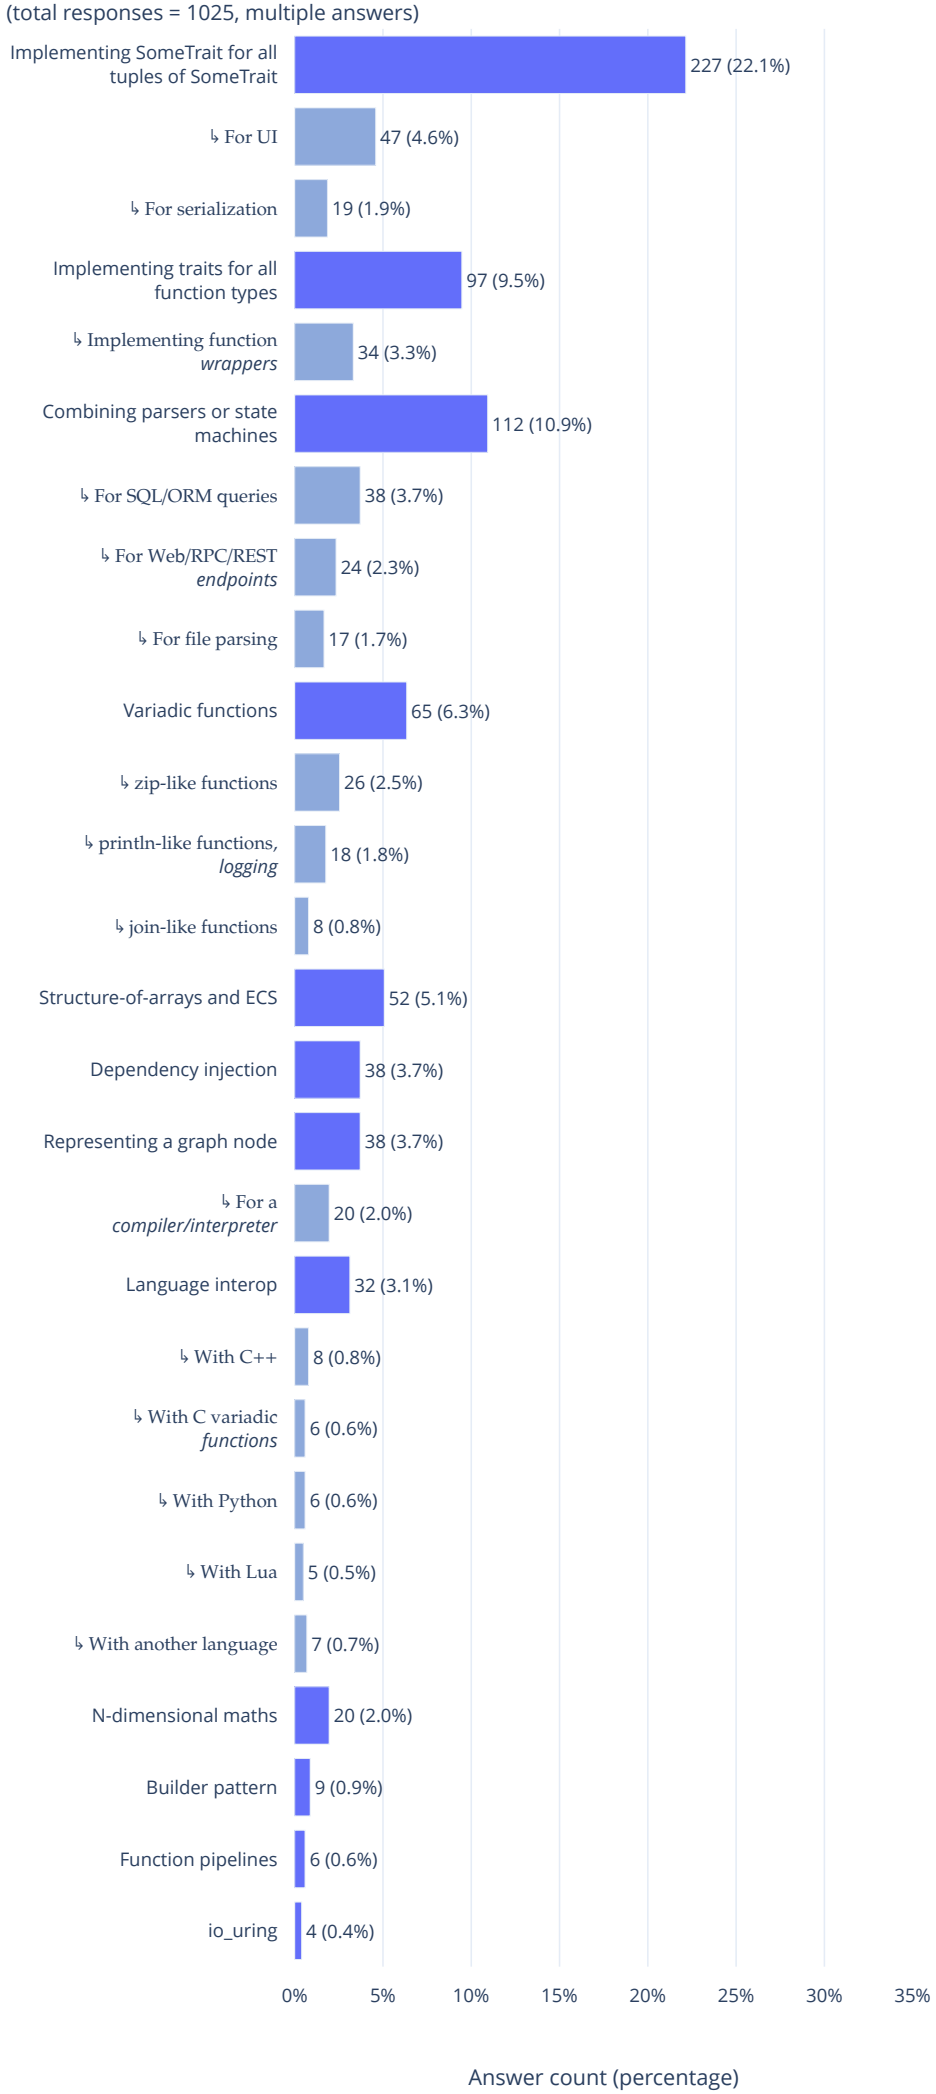

Are there cases where variadic generics would have made your project easier?

(total responses = 3021)

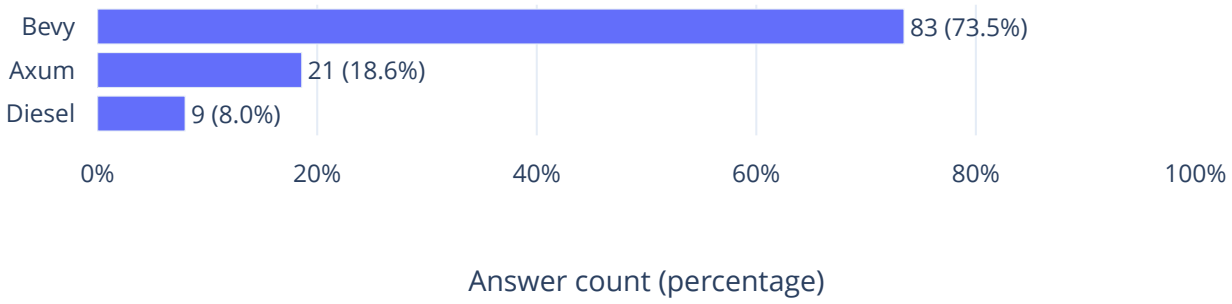

Are there cases where variadic generics would have made your project easier? (Open answers)

(total responses = 1025, multiple answers)

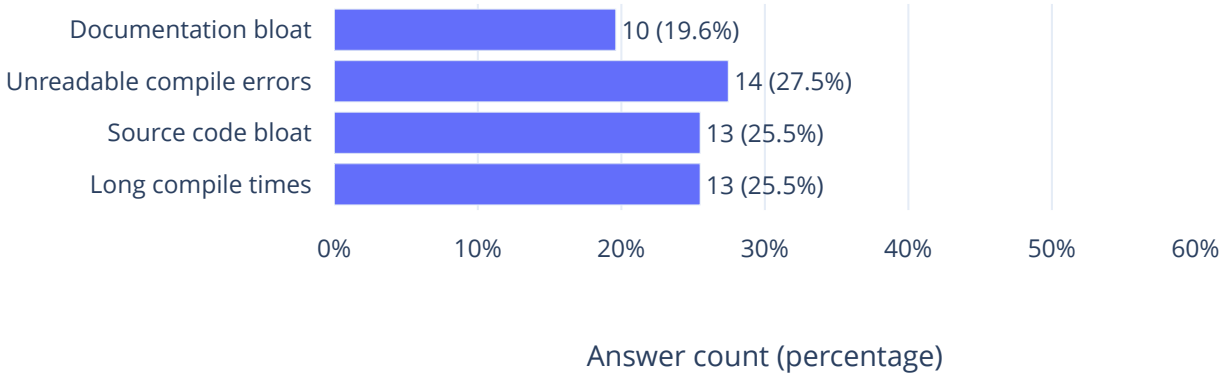

Mentioned wanting variadics for a specific project

(total responses = 113, single answer)

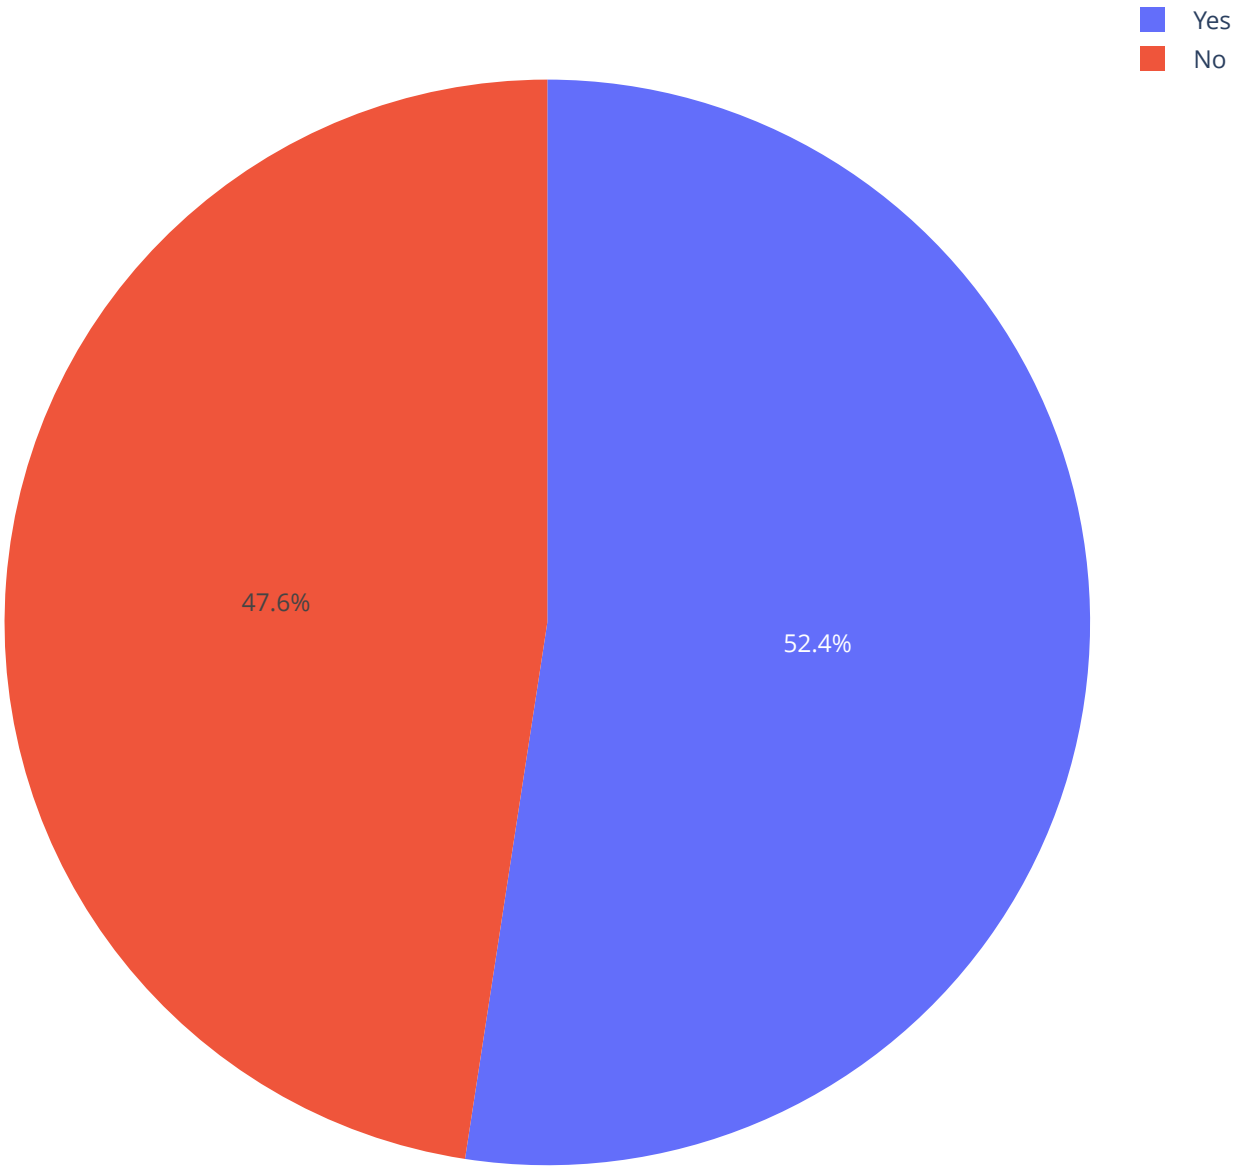

People who mentioned disliking the macro workaround

(total responses = 51, multiple answers)

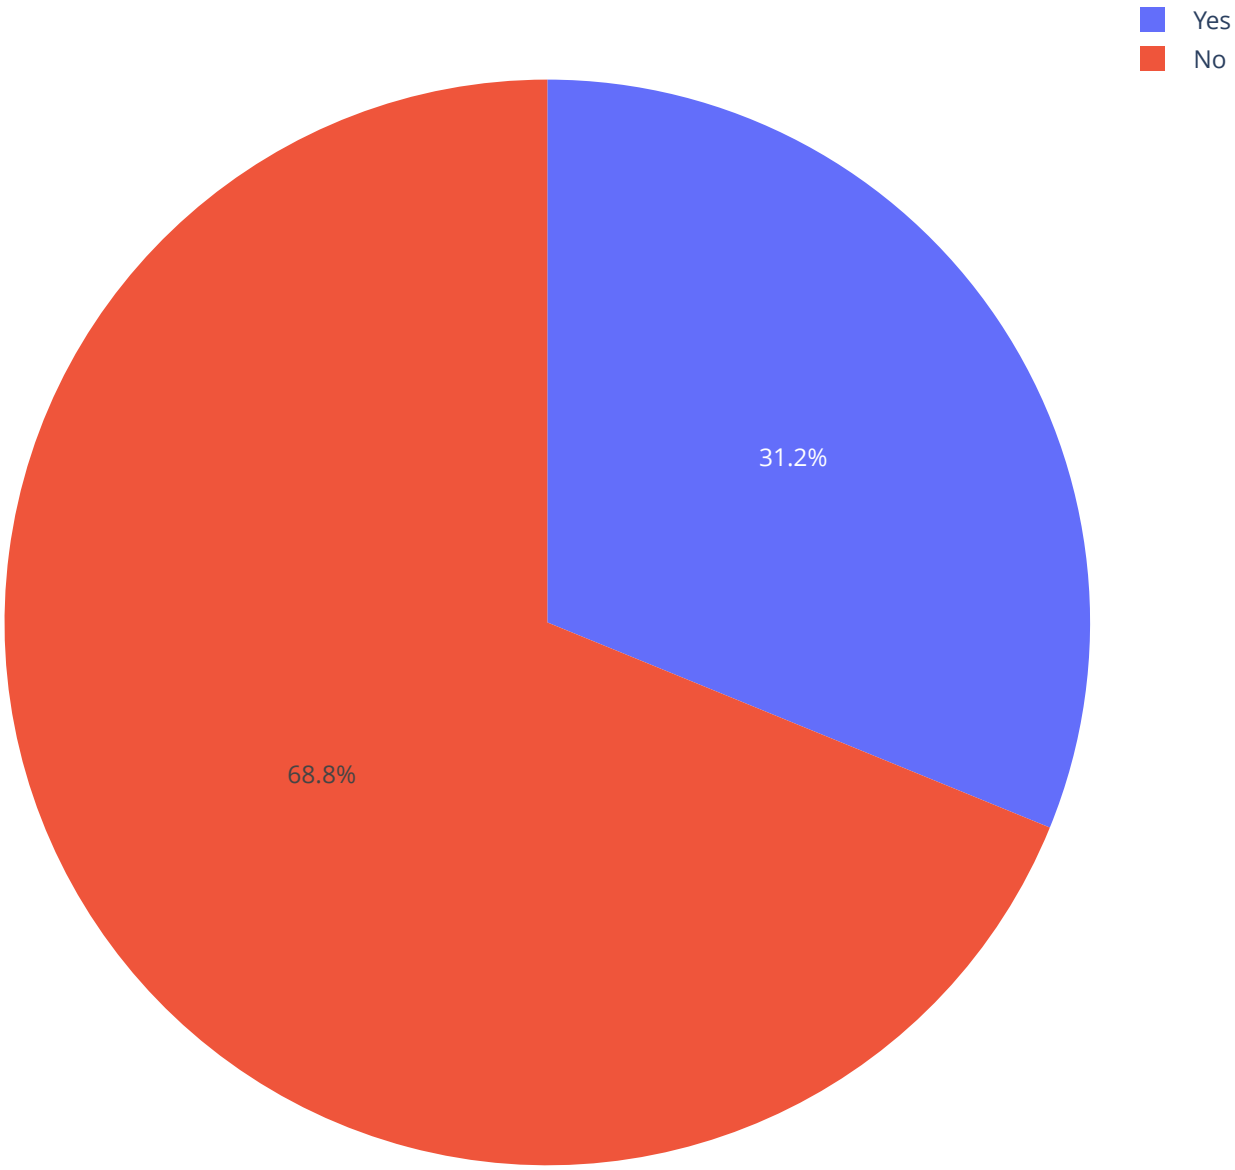

Are there cases where variadic mappings would have made your project easier?

(total responses = 2455)

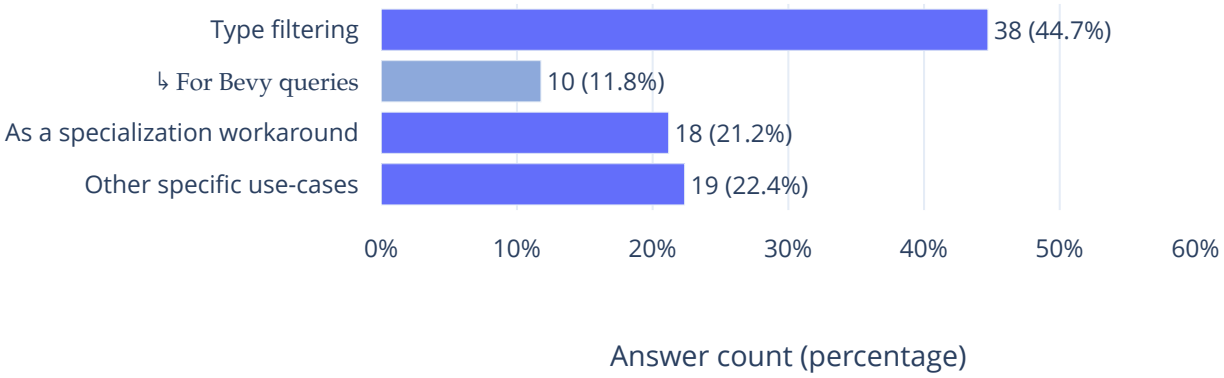

Are there cases where non-linear mappings would have made your project easier?

(total responses = 2233)

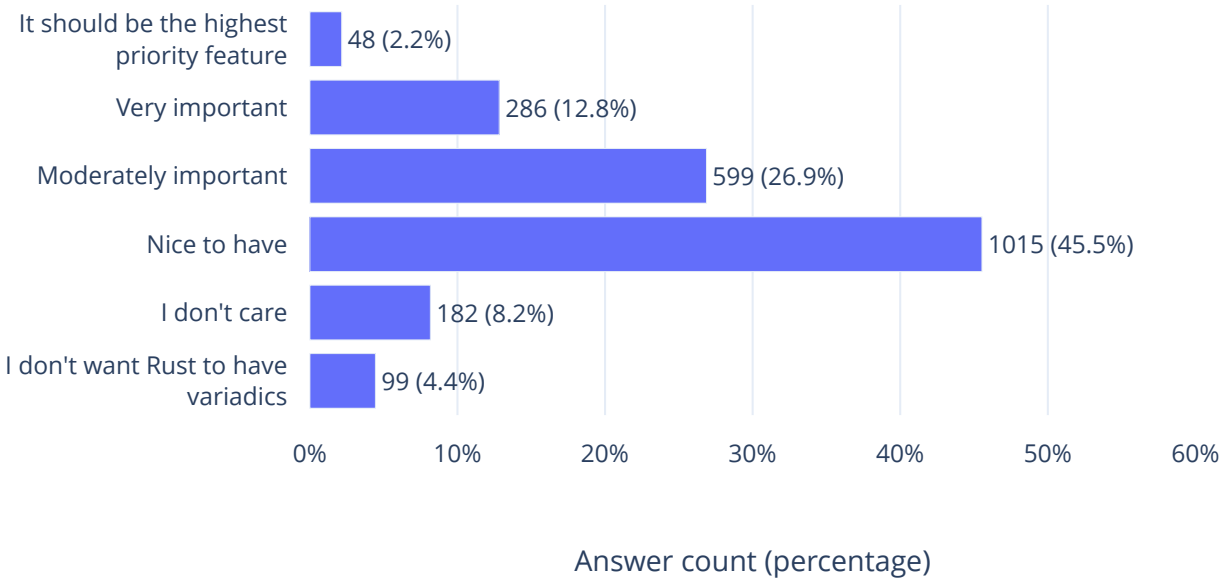

Are there cases where non-linear mappings would have made your project easier? (Open answers)

(total responses = 85, single answer)

How high a priority would you say variadics are for you?

(total responses = 2229, single answer)

Do you have any further comments related to variadic generics?

(total responses = 230, single answer)
